

“We could have never imagined the outcome of this trip when we decided to give it to our children as their Christmas present. The trip gave back to us! Seeing our children interact with the Latin American children has changed our family forever.”

— RAY AND JULIE ULLRICH

“There are really no words to express how grateful I am to you and to Eagle Condor for the wonderful experience Garrett had on the Youth Expedition. I think it was the perfect balance of service, sightseeing and spiritual experiences. He bonded more with these kids than he ever has before with friends his age. They were such a great group of good, centered kids. I’ve no doubt the relationships will continue for many years to come, and that is priceless!!

Your wonderful emails every night were so fun and exciting. I just really want you to know that this experience was life changing and life inspiring and we thank you from the bottom of our hearts!

We recommend Eagle-Condor to everyone!”

— JENNI HUNTINGTON

EAGLE CONDOR HUMANITARIAN uses the Chakana surrounding the Condor as our symbol to bridge cultures in unity. The Condor represents the people of the South and the Incan “Chakana” represents the bridging of heaven and earth. For hundreds of years South American Holy Men have prophesied a reunion between the long separated Northern People of the Eagle (technology and industry) and Southern People of the Condor (earth and heart). Now is the day for these two groups to rejoin and soar together to create a stronger global family as we share knowledge and wisdom.

Humanitarian Expeditions

LATIN AMERICA

Bridging cultures to empower children and families
by providing opportunities for self-reliance.

WHY SERVE?

Eagle Condor Humanitarian Expeditions maximize the potential in individuals and communities by drawing upon the strengths of diverse cultures to alleviate generational poverty through:

Education – Interns and avenues in education increase skill development

Business/Career Development – Self-Reliant and Micro Enterprise training to become sustainable change agents within their culture

Infrastructure – Connecting communities and creating centers of safety for children

Health/Nutrition – Incentivizing healthier lifestyle habits

EXPEDITION FAQ'S

Cost – \$1,850, Peru, Colombia, and Ecuador, (Expeditions do not include airfare — discount for families).

Includes – Project materials, hotels, buses/trains, tourism, and all meals.

Purpose – Alleviating poverty and producing generational change. Be ready to build school kitchens, construct a greenhouse or dig a well!

Methods – Projects are coordinated with local leaders and focus on strengthening communities. Expedition projects enhance long term goals of incentivizing people to engage in being a sustainable change agent within their communities.

Vision – Expeditions create humanitarians by assisting individuals to develop self-awareness of their global heart and mind.

Participants – Youth, Family, Individual and Customized Expeditions are all available thru Eagle Condor. Receive 1 free expedition for every 10 people in your group.

BRIDGING CULTURES

Several times a year Eagle Condor takes groups to Peru, Ecuador and Columbia to help communities become more self-sustaining. Join with us to:

- **Work** side-by-side with native people
- **Immerse** yourself in the culture
- **Bond** with fellow expedition members
- **Connect** with your global family
- **Change** lives, including your own

EXPEDITIONS:

Youth Expeditions focus on engaging teenagers with a unique away experience to foster their humanitarian spirit by giving of themselves and making a difference with their talents and their own two hands. Away Experiences are tailored

to prepare youth for missions, college and life.

Traditional Service Expeditions provide numerous one-on-one cultural interactions working with communities, schools, and rural youth centers on self-sustaining projects. Families, singles and groups of all skill sets are welcome!

Medical Expeditions, in partnership with Innovasis, train and help local doctors perform surgical techniques for spine and cranial procedures. Dentists, optometrists and maxiofacial also share their expertise and are often the focal point of our community efforts.

Group Expeditions can be arranged for 10 or more participants and are tailored to your timeframe and special needs.
